

FAASTeam presents:

Destination: Shelter Cove

Welcome to Shelter Cove Airport (0Q5), the next in our Destination series. Follow the Pacific coastline north about 200 miles to a beautiful airport next to a lighthouse on the California Lost Coast. The Lost Coast refers to the approximate 80 miles of relatively secluded California coastline that is bypassed by State Route 1 and U.S. Highway 101 – something only pilots can see. Shelter Cove is a beautiful coastal destination for many pilots seeking an interesting day or weekend flying trip. It appeals to both pilots and passengers alike. Load up your airplane with your favorite copilot, your golf clubs, and an overnight bag for a great weekend. Or turn your \$100 hamburger run into a \$100 high tea run and make it a day trip. In this seminar, presenter Herb Patten will walk us through considerations for flying into Shelter Cove Airport. He will cover route selection including terrain and airspace along the way, common weather patterns, aids to navigation, and what to do once you arrive. If you are planning a trip to Shelter Cove in the near future, you won't want to miss this informative presentation. Herb Patten is an FAA certificated advanced and instrument ground instructor who teaches Private Pilot ground school at San Carlos Flight Center. He holds a private pilot certificate with an instrument rating,

Select #: WP1557564

Representative Terry Fiala

has over 600 hours and flown into 111 different California airports. He is a board member of the San Carlos Pilot Association, SCAPA, co-founder of the Bay Area Student and New Pilot group, and an executive member of the Upwind Summer Scholarship Program steering committee. When not giving presentations he can be found in the air pursuing his aviation interest or supporting others in their flying adventures. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner. Pilots who fly in should park in transient parking and call the Flight Center for a ride (650) 946-1700.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
